Summary

FullStack Developer with 1 year of hands-on experience building production-ready web applications using React, Next.js, TypeScript, and Tailwind CSS. Experienced in developing reusable component systems, responsive user interfaces, API integrations, and performance optimization. Passionate about building clean, scalable, and user-centric applications.

Experience

Fullstack Developer Sep 2025 – Present
MediaClock *Remote / Australia*

- Developed McTyson, a Gmail-style finance document inbox using Next.js, Supabase, and TypeScript with keyword-based search and secure document management.
- Built responsive admin dashboards and reusable UI components using Next.js 13+, TypeScript, and Tailwind CSS v4.
- Integrated Lemon Squeezy subscriptions and Supabase backend for authentication, database operations, and payment workflows.
- Optimized application performance through lazy loading, code splitting, and image optimization, achieving 95+ Lighthouse scores.

Full-Stack Developer Intern Dec 2024 – Mar 2025
TechXerro *Noida*

- Refactored and optimized frontend architecture, reducing bundle size by 50% and improving interactive load performance across devices.
- Built reusable UI components and responsive layouts, improving design consistency and accelerating frontend feature development across multiple projects.

Projects

McTyson (Smart Finance Document Inbox) | *Next.js, Tailwind, Supabase, API, Lemon Squeezy* Live Demo

- Developed a Gmail-style web application that organizes finance-related documents such as invoices, bank statements, and transaction summaries with a clean, responsive, and pixel-perfect UI.
- Added Lemon Squeezy payment system to manage subscription-based access and streamline user billing workflows.

VipSports | *(Next.js, MongoDB, Tailwind CSS)* Live Demo

- Sports membership platform with dynamic content, responsive design, and MongoDB backend integration for seamless user experience.

Shoor E-commerce | *React, Tailwind, Redux, Framer Motion* Live Demo

- Developed a fast, animation-rich, pixel-perfect storefront increasing user engagement by 25%.
- Optimized asset delivery and lazy-loading reducing initial payload by 45%.

Technical Skills

Frontend: HTML5, CSS3, SCSS, JavaScript (ES6+), TypeScript, Tailwind CSS, Bootstrap
Frameworks/Libraries: React, Next.js, Redux, Framer Motion
Tools: Webpack, Vite, Babel, Git, VS Code, Vercel, Netlify
Design/UX: Figma, Pixel-Perfect UI, Responsive Design, Accessibility (a11y), SEO Basics
Backend/DB: Firebase, Supabase, REST APIs
Bonus: Familiarity with AI-assisted coding tools (Copilot, Cursor)

Education

Maharaja Agrasen College, DU
Master of Computer Applications (MCA) *2025-2027*

Guru Gobind Singh Indraprastha University 7.89 CGPA
Bachelor of Computer Applications *Dec 2021 – June 2024*
